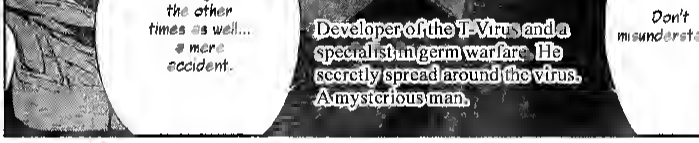
FINAL PART
Chris and Jill are in a small Russian village! The T-Virus is there as well, already taking it's toll. Along the way they are attacked by zombified inhabitants... What will happen?
原作 宮崎竜 漫画 松枝尚嗣 監修 カプコン

WESKER!!
So it was you!
In order to collect information, Jill and Chris have come to this small Russian village. However, by their arrival, all the villagers are infected by the T-Virus, changed into zombies, and attacked them. Will they be able to survive?
WESKER IS HERE, WHERE THE VIRUS IS! IS HE HERE TO KILL CHRIS AND JILL?
This tragedy,
I'm sure you're the one behind it!

Albert Wesker
Former S.T.A.R. captain
Developer of the T-Virus and a specialist in germ warfare. He secretly spread around the virus. A mysterious man.
Don't misunderstand.
The infection of this village by the virus was a mere accident.
Then why are you here?
Exactly like the other times as well... a mere accident.



What?!
Nothing that concerns you

2

Wait!
I could tell you that this village is cursed, but...
Right now

!!?
What's going on?!
The floor collapsed!
Tch... That's a result of your explosion in the silo...

Umbrella's bio-organic weapons!
These are...

The collapse must have revealed the secret the underground was holding.
So there they are.
The Delta Hunters we had lost track of...
Wesker, what's the meaning of this?
What are those creatures doing in the undergrounds!

We have no further use for this place
There has been a change in plans...

Wesker, stop!
I'll let you deal with the secondary tasks, Chris
Once again...
I have no more weapons

Chris!
Get to the car!
ドン
ドン
"This village is cursed" He must know something!
No idea! What's for sure is that he's landed us in a mess once again just to get something!
What the hell is going on here anyhow?
Using others, that's his style!
6
Anna, get in!
ドン

Eat this!
I know, we have to hurry up to catch him!
He's gone to the village!

Wesker, as well as Umbrella, is dangerous
We must keep the pressure on them!
……!
GO HIDE!
PAPA!
THE VILLAGE IS ALREADY CURSED.
PAPA?
BEFORE WE ALSO
DAD HAS ALWAYS TRIED HIS BEST TO PROTECT YOU.
KEEP THIS.
SHOULD AN EVIL PERSON COME
THAT PENDANT WILL PROTECT YOU.

You sure are tough.
Tell us why you've come to this village!
This time it's over Wesker!
Throughout the world, Umbrella has built several warehouses...
In order to store and scatter the riches of our group.
The B O W (bio-organic weapon), as well as the virus antibodies, were stored in this one.

That warehouse... was under the silo?
Were the villagers are working there?
To coordinate their work, there was someone who lived here,
A member of Umbrella
From this place, he monitored all of the data
Yet, because of the collapse, those underground research outposts have become out of reach.
However, there is still some treasure left.
Chris... Then...
I know
Enough talking. What will you do?
If you want to stop me with that weapon, fine by me, just try it...
Chris.

Anna, don't move!
!!!
Is this... What you want?
Here... It's my house.
Uh... It's okay
Bastard!
If you shoot, you could kill her.
AH!
Interesting

What?

"THAT PENDANT WILL PROTECT YOU"

IT TRIGGERS AN EXPLOSIVE DEVICE INSIDE THE SAFE.
SHOULD IT BE ACTIVATED, YOU'LL NEED TO RUN AWAY FAST.
Dad
You've protected me till the end
Dad!

All the data has gone up in ashes.
This time it's over.

Shit.

That really is a shame.
But in that wasn't the only treasure in that house.

The plans of the "site".
